🏥 Inflation Adjustment Report

Rosslyn Veterinary Clinic — Generated 2026-04-01

$134,452.41

Estimated annual revenue gap from 126 stale prices (not adjusted for CPI inflation)

Methodology: Each service's current fee was compared against its last known price change date (from the Avimark audit trail). Canada CPI inflation rates (Statistics Canada) were compounded year-over-year from the change year to 2026 to calculate what the price *should* be today. Services changed within the last 12 months are excluded. Annual volume is estimated from 622,881 historical billing records over ~12.5 years.
